

Thinking Out of the Box Engineering Applications

Product Catalogue 2025

Our Company

"We create innovative tools to make the world an accessible place for ALL"

TOBEA holds the following quality systems

Hundreds of millions of people are facing mobility issues, and there are still places that are not accessible. Using innovation as a powerful tool, our goal is to create new tools for accessibility. Starting from making any type of beach around the globe accessible, TOBEA's team keeps innovating for those who are facing problems.

All its products have CE and 2 years warranty

TOBEA was founded 2012.

What do we do?

Designing, manufacturing, and marketing mechanical applications for improving the quality of life for people with disabilities.
